Trusted SMPS & Magnetic Solutions

SMPS Transformers • Toroidal • Inductors • Chokes • Custom Magnetic Components

B. R. ENTERPRISES

— Precision in Every Turn —

Manufacturer of Custom Magnetic Components for Power Electronics

ABOUT US

B. R. Enterprises is a trusted manufacturer of SMPS Transformers, Toroidal Transformers, Inductors, Chokes, EMI Filters, Current Transformers, and Custom Magnetic Components.

With **more than 25 years** of industry experience, we have built a strong reputation for delivering high-quality magnetic solutions that meet the diverse needs of our customers.

We manufacture high-quality magnetic solutions for SMPS, industrial electronics, LED drivers, telecom, medical equipment, and other power electronic applications.

We specialize in custom-built magnetic components as per customer specifications.

PRODUCT RANGE

SMPS Transformers

Toroidal Transformers

Current Transformers (CT)

Power Inductors

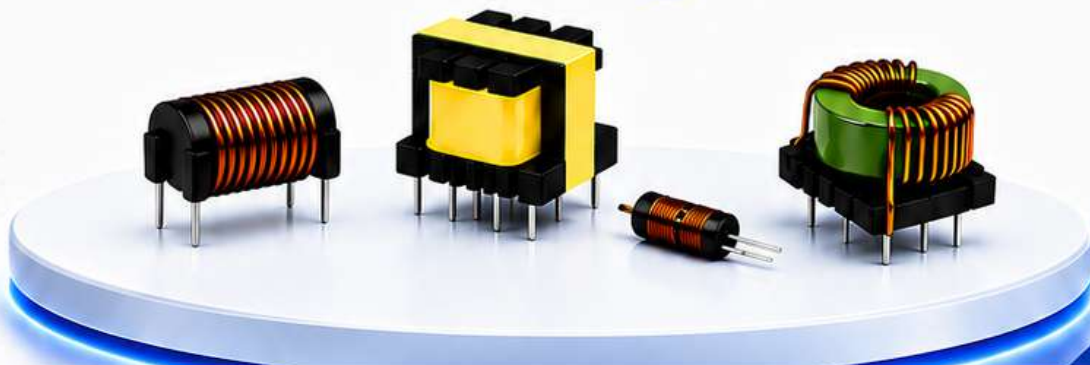

EMI Filters & Chokes

Pulse Transformers

Custom Magnetic Components

CUSTOM DESIGNS

OEM MANUFACTURING

BULK PRODUCTION

ADDRESS

SMPS TRANSFORMERS

Our SMPS Transformers are designed for high efficiency, low power loss, and excellent performance in switch mode power supply applications.

FEATURES

-  High efficiency & low core losses
-  Compact size & lightweight
-  Excellent electrical performance
-  High reliability & durability
-  Operates at high switching frequency

APPLICATIONS

-  SMPS Power Supplies
-  Adapters & Chargers
-  LED Drivers
-  Industrial Power Supplies
-  Consumer Electronics

SPECIFICATIONS

PARAMETER	SPECIFICATION
Power Rating	As per Requirement
Operating Frequency	20kHz to 500kHz
Efficiency	Up to 95%
Insulation Voltage	Up to 3000VAC
Operating Temperature	-20°C to +85°C
Core Material	Ferrite
Customization	Available as per Requirement

TYPES OF EE TRANSFORMER

EE-10

EE-13

EE-16

EE-19

EE-25

EE-30

EE-35

EE-40

Precision in Every Turn

TOROIDAL INDUCTORS & CHOKES

Our Toroidal Inductors & Chokes are designed for high efficiency, low electromagnetic interference, and compact size. Their toroidal core design ensures low core losses, excellent current handling capability, and reliable performance in filtering, power conversion, and EMI suppression applications.

FEATURES

Low electromagnetic interference (EMI)

High efficiency & low losses

Compact & lightweight design

Silent operation

High reliability & long life

APPLICATIONS

Audio Equipment

Medical Equipment

Industrial Control Systems

Power Supplies

UPS Systems

SPECIFICATIONS

PARAMETER	SPECIFICATION
Inductance Range	1 μ H to 100 mH+ (As per Requirement)
Current Rating	As per Requirement
DC Resistance (DCR)	As per Design
Operating Temperature	-20°C to +85°C
Core Material	Ferrite / Iron Powder / Silicon Steel
Customization	Available as per Requirement

TYPES OF TOROIDAL INDUCTORS & CHOKES

ROD & DRUM TYPE INDUCTORS

Our Rod and Drum Type Inductors are designed for high-frequency switching and filtering applications. They provide stable inductance, low core losses, and reliable performance in compact electronic circuits. Available in various inductance values and current ratings as per customer requirements.

FEATURES

-  High inductance stability
-  Compact & lightweight design
-  Low core loss
-  High current capability
-  Reliable performance & long life

APPLICATIONS

-  SMPS Power Supplies
-  EMI / Noise Filtering
-  DC-DC Converters
-  Industrial Electronics
-  Consumer Electronics
-  Signal Processing Circuits

SPECIFICATIONS

PARAMETER	SPECIFICATION
Inductance Range	1 μ H to 100 mH and above (As per Requirement)
Core Material	Ferrite / Iron Powder
Current Rating	As per Requirement
Operating Frequency	Up to 500 kHz
Operating Temperature	-20°C to +85°C
Customization	Available as per Requirement

TRANSFORMERS

UU • EFD • ETD • EI SERIES

Our range of UU, EFD, ETD & EI Series

Transformers are designed for high efficiency, low power loss, and excellent performance in a wide range of electronic applications.

Built with high quality materials and precision engineering to ensure reliability and long life.

FEATURES

High efficiency & low power loss

Compact & lightweight design

High insulation strength

Excellent thermal performance

Reliable performance & long life

APPLICATIONS

SMPS & Power Supplies

Consumer Electronics

Industrial Equipment

LED Drivers & Lighting

Medical Equipment

Telecom & Networking

SPECIFICATIONS

PARAMETER	SPECIFICATION
Core Types	UU, EFD, ETD, EI
Input Voltage	As per Requirement
Output Voltage	As per Requirement
Operating Frequency	20kHz to 500kHz
Core Material	Ferrite
Operating Temperature	-20°C to +85°C
Customization	Available as per Requirement

B. R. ENTERPRISES

Precision in Every Turn

WHY CHOOSE B. R. ENTERPRISES

At B. R. Enterprises, we are committed to delivering high-quality magnetic components that ensure reliability, efficiency, and long-term performance.

Our focus is on precision manufacturing, innovation, and complete customer satisfaction.

OUR STRENGTH

**Quality You Can Trust,
Performance You Can Rely On.**

We combine advanced technology with skilled workmanship to deliver products that meet global standards and customer expectations.

CUSTOM DESIGN SOLUTIONS

We manufacture as per customer requirements, drawings, and specifications.

HIGH QUALITY MATERIALS

We use premium grade cores, wires, and insulation materials for superior performance.

STRICT QUALITY CONTROL

100% inspection and rigorous testing ensure consistent quality and reliability.

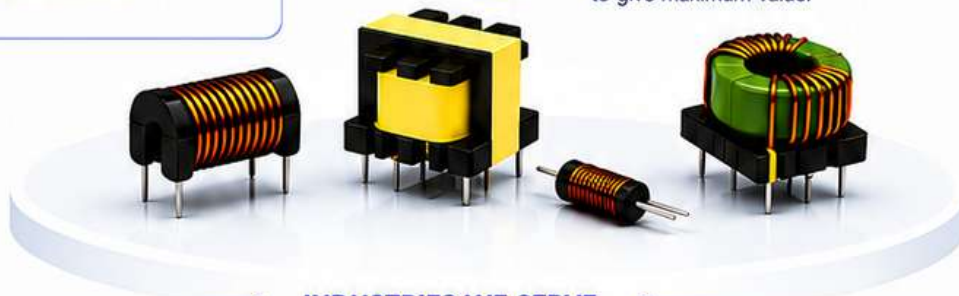

FAST & ON-TIME DELIVERY

Efficient production and smart logistics ensure timely delivery every time.

COMPETITIVE PRICING

Best quality products at competitive prices to give maximum value.
